MALAYSIA'S CITY ELITE WHO LOVE TO ESCAPE TO IDYLIC ISLANDS NOW DON'T HAVE FAR TO GO FOR AN EXOTIC FIX

The word is out and the investment savvy are already lining up. The soon-to-be-built **SENI AT MONT'KIARA** in Kuala Lumpur will not only become one of Kuala Lumpur's tallest residences, it will also offer an ambiance normally only found at swish island resorts. The landscape is based on an island theme with a central courtyard running between two blocks to create a 2.3 acre recreational platform. Art merges with urban architecture in the exotic gardens complete with swimming pools, tennis and squash courts, a café, shops, library and art gallery. Of course, the luxuriously furnished apartments with their own private lifts have dream kitchens, à la Chef Wan and will be open for public viewing this month.
